Endpoints:

The image shows the Swagger UI for the Tarea1 API. The interface is dark-themed and includes the Swagger logo and version information (1.0 OAS3) at the top. A dropdown menu allows selecting the definition 'Tarea1 v1'. The main content area lists the API endpoints, categorized under 'Tareas' and 'WeatherForecast'. The 'Tareas' category includes four endpoints: GET /api/Tareas, POST /api/Tareas, GET /api/Tareas/{id}, and DELETE /api/Tareas/{id}. The 'WeatherForecast' category includes one endpoint: GET /WeatherForecast. Below the endpoints, there is a 'Schemas' section with expandable items: DateOnly, DayOfWeek, and Tarea.
